Prescription Medication Analysis & Reporting Tool (PMART)

Hector Morales
Deputy Director, POC
Pharmacoeconomic Center

LTC Stacia Spridgen
Director, DoD Pharmacoeconomic Center

Report Tool Summary

- Medication profile snapshot for deploying SMs
  - Pre-deployment medication screening
  - Identification of high-risk SMs
  - Identification of SMs who require CENTCOM waiver
- Menu-driven, Microsoft Access database with look-up features and reports
- Pharmacy Data Transaction Service (PDTS) is data source
  - All DoD Pharmacy points of service
- Report turn-around 24 – 72 hours

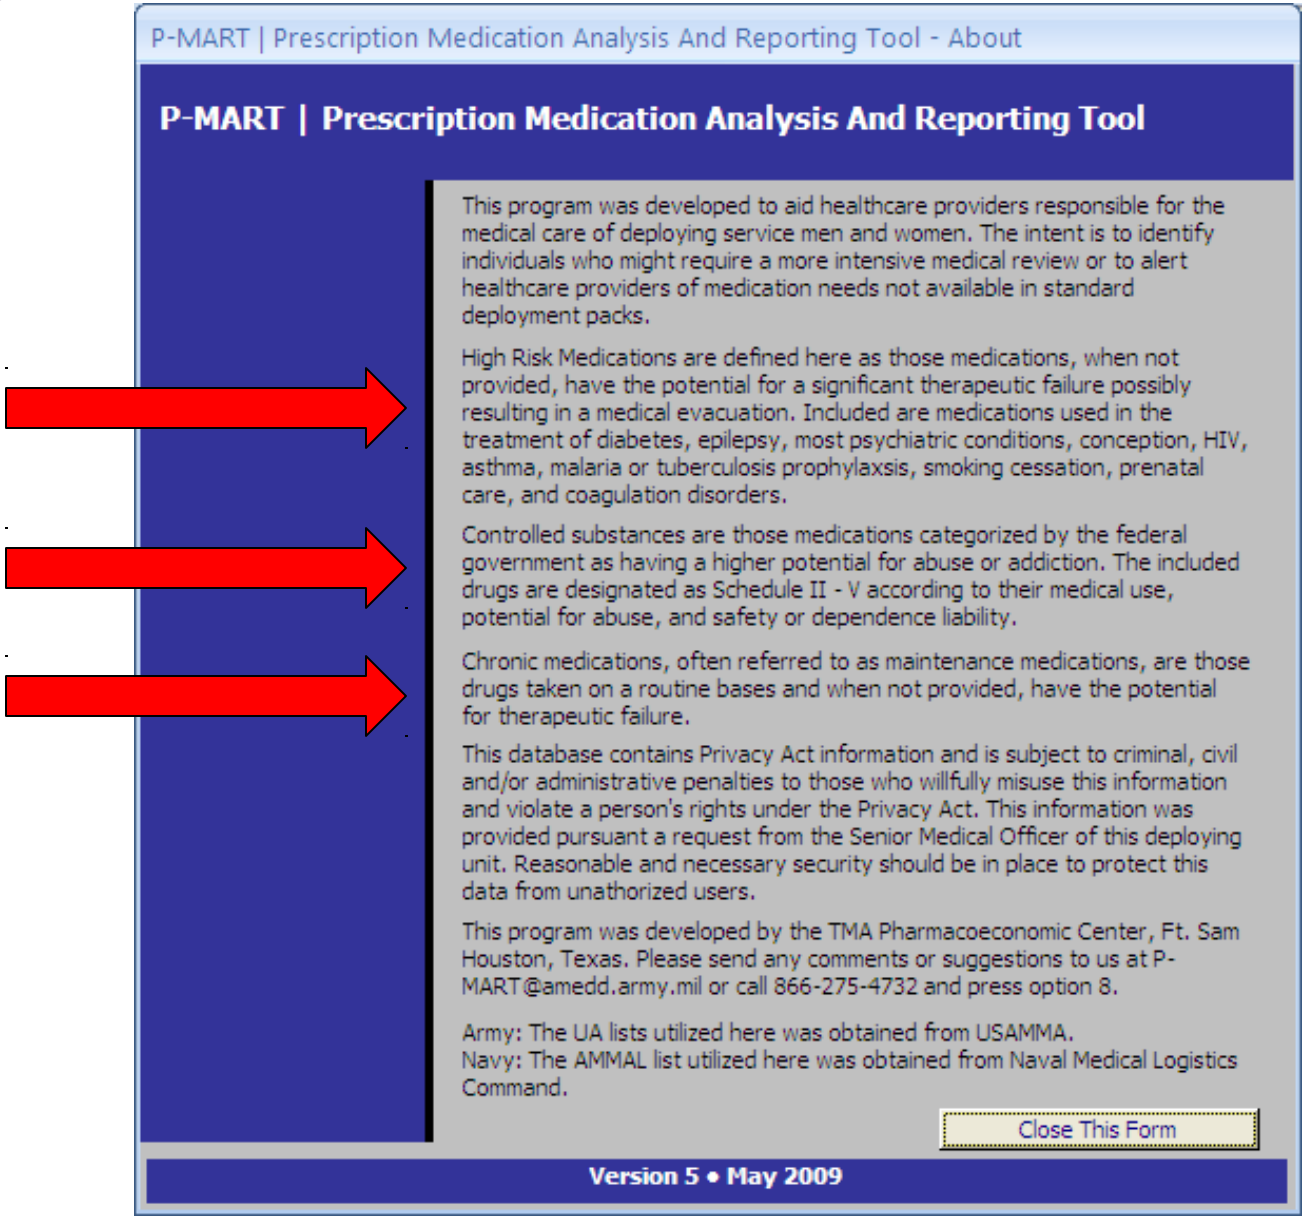
About This Program Button



P-MART | Prescription Medication Analysis And Reporting Tool - About
P-MART | Prescription Medication Analysis And Reporting Tool
This program was developed to aid healthcare providers responsible for the medical care of deploying service men and women. The intent is to identify individuals who might require a more intensive medical review or to alert healthcare providers of medication needs not available in standard deployment packs.
High Risk Medications are defined here as those medications, when not provided, have the potential for a significant therapeutic failure possibly resulting in a medical evacuation. Included are medications used in the treatment of diabetes, epilepsy, most psychiatric conditions, conception, HIV, asthma, malaria or tuberculosis prophylaxsis, smoking cessation, prenatal care, and coagulation disorders.
Controlled substances are those medications categorized by the federal government as having a higher potential for abuse or addiction. The included drugs are designated as Schedule II - V according to their medical use, potential for abuse, and safety or dependence liability.
Chronic medications, often referred to as maintenance medications, are those drugs taken on a routine bases and when not provided, have the potential for therapeutic failure.
This database contains Privacy Act information and is subject to criminal, civil and/or administrative penalties to those who willfully misuse this information and violate a person's rights under the Privacy Act. This information was provided pursuant a request from the Senior Medical Officer of this deploying unit. Reasonable and necessary security should be in place to protect this data from unathorized users.
This program was developed by the TMA Pharmacoeconomic Center, Ft. Sam Houston, Texas. Please send any comments or suggestions to us at P-MART@amedd.army.mil or call 866-275-4732 and press option 8.
Army: The UA lists utilized here was obtained from USAMMA.
Navy: The AMMAL list utilized here was obtained from Naval Medical Logistics Command.

"Your PMART Statistics Report"

Medication Use Statistics

Date Range: 5/28/2008 - 5/29/2009

Personal Data - Privacy Act of 1974 (PL 93-579)

Current Number of Service Members :	8	
Current Number of Prescriptions:	129	
Current Number of Service Members with Prescriptions:	8	100.0%

The below statistics are all subject to available filtering. If you have deselected units or changed the reporting date range on the previous window (Details/Admin window), the counts below will report within these restrictions. The percentages below use Current Number of Service Members/Prescriptions as the denominator.

	Number of Rxs		Number of SMs on at least one:	
High Risk Medications:	25	19.4%	4	50.0%
Non-Deployment Medications:	60	46.5%	8	100.0%
Chronic Medications:	59	45.7%	8	100.0%
Controlled Medications:	25	19.4%	6	75.0%
Narcotic Medications:	25	19.4%	5	62.5%

PMART Facts and Findings

- 557 PMART/WTU reports completed resulting in 6.2 million reviewable prescriptions for 1.3 million service members
- Completed 366 Army, 130 Navy, 37 Air Force, 23 Marine, & 1 Coast Guard PMART/WTU reports
- Identified 287,349 (22%) service members who were taking high-risk medications

Current as of 24 Mar 10

PMART Summary

- **PMART is a tool to assist in the pre-deployment medical screening process**
- **Fast and efficient tool for screening medication use**
- **Easy to navigate and no additional cost to use**
- **Specialized to a particular audience, for a specific purpose**

How To Order PMART Report?

- Contact PEC at DSN 471-8274 COMM 210-221-8274 or email p-mart@amedd.army.mil
- Provide Unit Alpha Roster via PEC Secure Server
- Complete Sensitive Data Request Form
- Located at:

www.pec.ha.osd.mil/pmart

Sensitive Data Request Form

Request for Sensitive Data in Support of Deployments (P-MART) or Warriors in Transition (WTU/P-MART) v.2

In order for the TMA Pharmacy Operation Center (POC) to release data contained in our Prescription Databases to other DoD Organizations, it is necessary you justify your organization's success depends on access to the information, which is deemed sensitive under the Privacy Act of 1974, therefore establishing a "need to know".

- **Please complete (including signature) this request form and send via fax to "Data Management Team (DMT)" at the TMA POC at 210-221-8131.**
- **To ensure legibility, please type out your request.**
- **For assistance completing this form or any other related information you can email the DMT at P-MART@amedd.army.mil or call the POC at 1-866-275-4732, select option 8 and ask for a Data Management Team member.**

Type of database request:

Date of Request:

Date Required (we prefer 3-5 business days, but can process sooner if required, call the POCs above to arrange):

Requesting Site (Installation Name):

Requesting Service/Command:

Requestor's Name (and Rank, if applicable):

Sensitive Data Release Form (cont)

NOTICE:

The undersigned acknowledges that criminal penalties under the Privacy Act (5 U.S.C. § 552a(i) (3)) may apply if it is determined that the undersigned, or any individual employed or affiliated therewith, knowingly and willfully obtained the file(s) under false pretenses. Further, the undersigned acknowledges that criminal penalties may be imposed under 18 U.S.C. § 641, which provides that if it is determined that the undersigned, or any individual employed or affiliated therewith, has taken or converted to his own use data file(s), or received the file(s) knowing that they were stolen or converted, they shall be fined under Title 18, imprisoned not more than 10 years, or both. In addition, the undersigned and any individual employed or affiliated therewith may be subject to civil suit under the Privacy Act for damages which occur as a result of willful or intentional actions which violate an individual's rights under the Privacy Act.

By signing this Agreement, the undersigned agrees to abide by all provisions set out in this Agreement for protection of the data file(s) requested, and to ensure that all individuals having access to the requested files are appropriately educated regarding the requirements of the Privacy Act. The undersigned acknowledges having received notice of potential criminal, administrative, or civil penalties for violation of the terms of the Agreement.

Deployment Prescription Program (DPP) Overview

TMA Pharmacy Operations Center (POC)

- **Serves as the point of contact for all questions about deployment prescriptions**
- **Liaison between the MTF, SM and the mail order pharmacy (MOP) to ensure processing of refills in theater**
- **Liaison between the Senior Theater Pharmacy Consultant, Theater pharmacy officers, and SRP sites for updated CENTCOM guidance**

Prior To Deployment……

1. **MTF/BDE or DIV Surgeon/Pharmacy Officer uses a P-Mart to pre-screen for medication needs**

2. **MTF/Deployment Site provides briefing information to SMs on deployment Rx process**

3. **Providers prescribe medications for deploying SMs using a mail order registration Rx form**

Subject: Register Online for the TRICARE Mail Order Pharmacy

Dear Jane Doe,

This is a courtesy reminder from the TRICARE Mail Order Pharmacy (TMOP) operated by Express Scripts. **You must take the action described below to receive follow-on prescription medication while deployed.**

You have been identified as having one or more prescriptions that will be mailed to you during your deployment. You must first activate your account on the TMOP website to receive an e-mail reminder when these prescriptions become available for delivery (see directions below).

TO ACTIVATE YOUR ACCOUNT NOW:

1) Visit http://www.express-scripts.com/custom/dod/ben_message/
2) Click "Activate Your Online Account."
3) Complete all steps of the activation process.

PLEASE NOTE: The e-mail reminder will be sent to the e-mail address that you specify during the enrollment process.

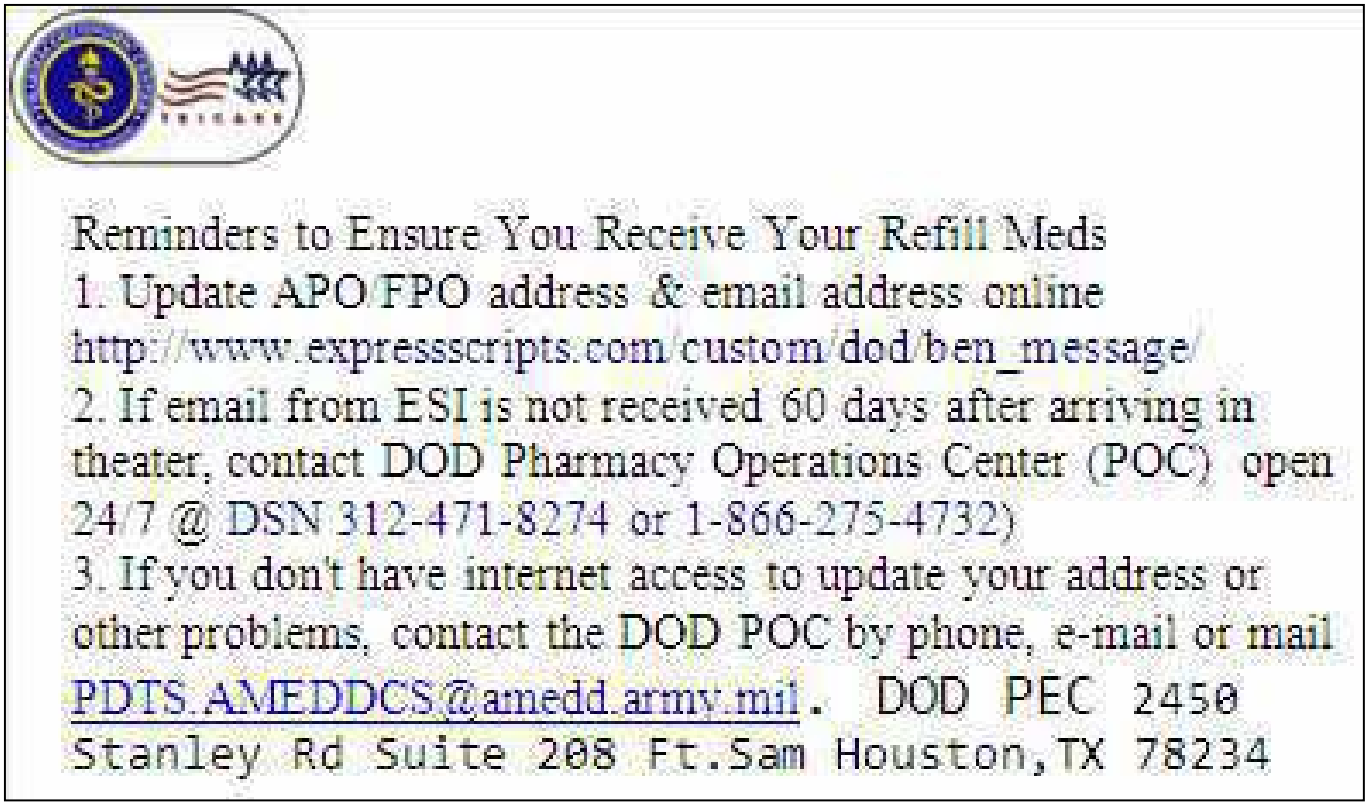
The activation process takes only a few minutes and provides access to several online features of your TMOP benefit, including benefit details, online ordering, drug and health information, and more.

If you have already activated your account, please sign in by visiting https://member.express-scripts.com/web/member/loginreg/dodLoginStart.do and verify your current shipping and e-mail address.

If you have any questions, please call 1.866.DOD.TMOP (1.866.363.8667), or log on to your account and visit the Contact Us section.

Receiving Medication Refills While Deployed

Business Card Reminder



Reminders to Ensure You Receive Your Refill Meds
1. Update APO/FPO address & email address online
http://www.expressscripts.com/custom/dod/ben_message
2. If email from ESI is not received 60 days after arriving in theater, contact DOD Pharmacy Operations Center (POC) open 24/7 @ DSN 312-471-8274 or 1-866-275-4732)
3. If you don't have internet access to update your address or other problems, contact the DOD POC by phone, e-mail or mail PDTS.AMEDDCS@amedd.army.mil. DOD PEC 2450 Stanley Rd Suite 208 Ft.Sam Houston,TX 78234

CENTCOM Surgeon Policy for Psychotropic Medications (MOD 10)

- **Deploying SMs (and other TRICARE eligible contractors and civilians) will receive initial 180 day supply of psychotropic medications at SRP sites**
- **Exception is for CII stimulants - 90 day**
- **Follow-up care and refill/new prescriptions will need to be written by a provider in theater to ensure close monitoring**
- **Renewal prescriptions will be filled entirely in theater for a new (up to) 180 day supply, at which point the patient will need to be seen again for another new prescription.**
- **If SM stable on a psychotropic medication and has enough medication on hand, the theater provider may send a new prescription to the POC**

CENTCOM Policy (MOD 10) - continued

- **SRP site responsible for telling deploying SMs what they must do to:**
  - **Obtain a refill for psychotropic medications while in theater**
  - **If prescriptions are being written for anti-seizure medications but used for other indications than mood control, providers must write the indication on the Mail Order registration/Rx form**
  - **POC will process refills through the Mail Order for these medications**

Special Mail Order Situations

- **Schedule II controlled substances (i.e. Concerta ®) *require* an original paper prescription with an accurate provider's DEA and/or provider SSN**
- **Schedule II Rxs must be mailed to the POC**
- **90-day supply of Schedule II RXs is authorized at one time with no refills.**
- **Retired TRICARE eligible beneficiaries working as deployed contractors using Mail Order *are responsible* for any applicable co-pays**

Mail Order Prescription Limitations

- **Temperature controlled medications *will not be* provided by Mail Order**
- **OTC medications *are not part of the TRICARE pharmacy benefit* through Mail Order (exception of Prilosec OTC, Claritin 10mg, Claritin-D, Zyrtec 10mg and Zyrtec-D)**
- **Provider signature is required**
- **No digital signatures accepted**

The PEC'S web forum for MHS health care providers. Our newly redesigned web forum can be reached at https://rxnet.army.mil.

The PEC Vision

The Department of Defense (DoD) PharmacoEconomic Center (PEC) is a customer oriented Center of Excellence implementing recognized state of the art pharmacoeconomic analysis for the purpose of improving readiness by increasing value, quality, and access to medical care and pharmacotherapy within the available resources of the Military Health System (MHS).

The PEC Mission

To improve the clinical, economic, and humanistic outcomes of drug therapy in support of the readiness and managed healthcare missions of the MHS.

PEC Activities

Pharmacoeconomic Analysis - The PEC monitors drug usage and cost trends and performs pharmacoeconomic analyses to support DoD formulary management, national pharmaceutical contracts, and clinical practice guidelines.

DoD Pharmacy & Therapeutics (P&T) Committee Support - The PEC provides extensive administrative and technical support for the DoD P&T Committee, which manages the DoD Basic Core Formulary (BCF) and the Mail Order Pharmacy Formulary.

The Pharmacy Operations Center (POC) - The POC supports users of the Pharmacy Data Transaction Service, a centralized prescription data repository that provides a single, comprehensive patient drug profile for DoD beneficiaries across the Military Health System.

Information Systems - The PEC helps in the development and management of information systems that support the provision of drug therapy and evaluation of the pharmacy benefit.

Pharmaceutical Contracts - The PEC works with the Defense Supply Center Philadelphia & the VA Pharmacy Benefits Management Strategic Health Group and National Acquisition Center to establish national pharmaceutical contracts.
